Profile

I am a Principal Scientist in the Fluid Dynamics Team, responsible for fluid dynamics analysis on a range of projects including incident investigations, support work on new guidance and standards, model reviews, government-funded research and consultancy for various companies. Amongst other projects, over the last 15 years at HSE's Science and Research Centre (formerly the Health and Safety Laboratory, HSL) I led work using Computational Fluid Dynamics (CFD) to investigate the Buncefield Incident and the fluid flow analysis at the Institute of Animal Health during the investigation into the foot-and-mouth outbreak in 2007. From 2010 - 2015, I was heavily involved in research aimed at assessing the risks posed by leaks from pipelines transporting dense-phase carbon dioxide (CO₂). I led HSL's involvement in a large CO₂ pipelines project sponsored by National Grid (COOLTRANS) and was heavily involved in an EU-sponsored CO₂ pipelines project (CO₂PipeHaz). This work included running CFD simulations of the complex multi-phase dispersion behaviour of CO₂ jets. During that time, I also led the CFD modelling work in a four year industry-sponsored project on flammable mists. In the last few years, I have been focussed on modelling dispersion of pressure-liquefied chlorine for the Jack Rabbit II experiments as part of an international project coordinated by the US Departments of Homeland Security and Defense. Currently, I am busy working on various hydrogen projects, including support to SGN on repurposing the UK Local Transmission System for hydrogen and CO₂ transport, support to the HyDeploy project on modelling gas accumulation in buildings, and leading work on the H21 project on assessing leaks from assets in the gas distribution network and purging of hydrogen pipelines.

Work Experience

2011 - Present	Band 2, Principal Scientist, Fluid Dynamics Team, HSL
2006 – 2011:	Band 3, Senior Scientist, Fluid Dynamics Team, HSL
2005 – 2006:	Band 4, Fluid Flow Modeller, Health and Safety Laboratory, Buxton
2007:	Research Fellow for six months part time, undertaking research on marine current turbines, Joule Centre, Manchester University

- 1998 – 2004: PhD Student, Research Assistant/Associate, Temporary Lecturer, Mech. Aero. Civil Eng. (MACE) School, Manchester University – inc. four-month post-doc at Université d’Aix-Marseille, France
- 1997 – 1998: Building Services Design Engineer, Ove Arup & Partners, Manchester
- 1993 – 1997: Sponsored Student, Ove Arup & Partners, London, Edinburgh, Italy, Manchester
-

Qualifications & Professional Membership

- Chair of the Atmospheric Dispersion Modelling Liaison Committee (ADMLC), a committee of dispersion modelling experts primarily from UK and Irish government agencies, including the Met Office, PHE, EA, SEPA, EPA, AWE, DSTL, DEFRA, FSA, HSE, ONR, EDF and RiskAware. We meet three times per year, commission research projects, publish research, host technical webinars and hold a public workshop/seminar every two years. For more information see: www.admlc.com.
 - Chartered Engineer and Fellow of the Institute of Mechanical Engineers (CEng FIMechE)
 - PhD in CFD and turbulence Modelling, MACE School, Manchester University, 2002
 - Thesis entitled: “Development and application of a new wall function for complex turbulent flows”
 - Presented with Sheila Mo Award for contribution to MACE School
 - MEng (Distinction) in Mechanical Engineering, Leeds University, 1997
 - One year spent at Waterloo University, Ontario, Canada
 - Awarded IMechE Best Student Prize
-

Journal Peer Reviews

Since 2010 I have completed over 30 peer reviews for the following journals and conference:

- Atmospheric Environment
- Boundary Layer Meteorology
- Chemical Engineering Science
- Fuel Journal
- International Journal of Environment and Pollution
- International Journal of Greenhouse Gas Control
- International Journal of Heat and Fluid Flow
- Journal of Loss Prevention in the Process Industries
- Journal of Wind Engineering and Industrial Aerodynamics
- Process Safety and Environmental Protection
- Safety Science
- International Pipeline Conference (IPC 2018)
